CAREER OBJECTIVE

To secure a challenging position in a reputable organization where I can learn new skills, expand my knowledge, and contribute to the company's growth. I aim to utilize my potential and make a meaningful impact.

EDUCATION

GM Institute of Technology

Bachelor of Engineering in Electronic and Communication.

CGPA : 7.06

Davanagere

Dec 2020 – June 2024

Siddaganga PU Science college

Pre-University college

Percentage : 71.33%

Davanagere

June 2018 – June 2020

Sri Taralabalu Jagadguru Educational Institution

SSLC State Board

Percentage: 79.36%

Davanagere

2018

SKILLS

- **Programming Languages** : C programming , C++
- **BMS Monitoring** : knowledge of HVAC, AHU, Chiller, UPS and PAC able to monitor and handle alarms.
- **AutoCAD**: 2D drafting, Layers, Blocks, Dimensions, Annotations, Hatch, Modify Tools.
- **AutoCAD Electrical**: Electrical Schematics, Wiring Diagrams, Electrical Symbols, Wire Numbering, Component Tagging, Panel Layouts

ACADEMIC PROJECTS

Automatic car window opening and closing system by using smoke detector

17 June – 13 July 2023

- **Objective**: Developed a system that automatically opens and closes car windows when smoke is detected, enhancing safety and ventilation.
- **Technologies Used**: Utilized smoke sensors, microcontrollers (Arduino UNO IDE Tool) and motor drivers to control the window mechanisms.

Intellivest: Stay bright ,stay safe on every turn

4 April – 3 May 2024

- **Objective**: Developed a smart safety vest to enhance visibility and safety for workers and cyclists.
- **Technologies Used**: Integrated high-visibility LEDs, ADXL345 sensor, IR sensor, GPS, ESP32 microcontrollers.

TRAINING

Advanced Embedded System Trainee (June 2024)

- Hands-on technical training program Advanced embedded system course at Emertxe Information Technologies, Bengaluru.

CADD Training Centre, Davangere

AutoCAD & AutoCAD Electrical Training

- Hands-on training in 2D drafting, electrical schematics, wiring diagrams, electrical symbols and basic design documentation.

TRAINING PROJECTS

1. Image Stegnography using LSB encoding and decoding

The objective of this project is to hide text format data into the image by replacing the Least Significant Bits of the image with the secret text/data.

Technologies used : Advanced C-file operations, Pointers, Bitwise operations, Command line argument.

EXPERIENCE

CISCO – Bengaluru

BMS Operator (June 2025 – May 2026)

- Monitored and operated the Building Management System (BMS) in a data centre environment.
- Monitored HVAC, AHU, chiller, and power systems through BMS.
- Identified alarms and faults and informed maintenance team for quick action.
- Maintaining daily logbook and reports.

LANGUAGES

- Kannada
- English
- Hindi

CERTIFICATES

Circuit Prototyping | Workshop

Certificate from Rlogic Technologies.

25 - 27 Feb 2022

Design and development of embedded systems and IOT | Internship

Certificate from Inventeron Technologies.

12 - Sep 2023
